

June 23, 2021

The Honorable Pete Buttigieg
Secretary, U.S. Department of Transportation
1200 New Jersey Avenue SE
Washington, D.C. 20590

Dear Secretary Buttigieg,

I am writing to convey my support of an application being submitted by the City of Manchester, NH for a FY 2021 Rebuilding American Infrastructure with Sustainability and Equity (RAISE) grant for the South Millyard area of Manchester.

For more than three decades, the Manchester Development Corporation has invested in economic development projects in the state's largest city. We administer a revolving loan fund to provide gap financing to new and growing businesses in the downtown. During Covid-19, working with the Mayor and Aldermen, we created a recovery fund dedicated to helping our restaurants and other small downtown businesses survive. We are always looking for new projects to support and we believe improving intermodal connectivity will bring many new economic development opportunities to the center of our city.

The RAISE grant will provide a transformative opportunity for investment in intermodal connectivity for the movement of people and goods at the center of Manchester, with positive effects rippling throughout the city and Central New Hampshire region. Over the past ten years the South Millyard has evolved from its historic use as an area of heavy industry with supporting rail corridors to an area of vibrant mixed uses including educational institutions, multi-unit housing, restaurants, shopping, sports and entertainment, among other dynamic activities. However, this ongoing growth is now constrained by an outdated and disconnected transportation network.

We believe the Manchester project provides an innovative approach to invest in intermodal project that will reweave the lost street and pedestrian connections to connect a growing but detached part of our community. Specifically, the project will help:

- Increase the flow of workers, residents, goods and services and mitigate existing extreme congestion by creating new connections to the existing street network and highway system at multiple points to/from South Millyard,
- Provide increased transportation choices and safety by improving pedestrian and bicycle connectivity, accessibility, comfort and safety,
- Creating a completely new multi-modal transportation corridor by repurposing the disused Boston & Maine rail bed

- Create the opportunity for the location and establishment of the Multi-Modal Transportation Hub in central location to serve travelers using multiple types of transportation to major attractions and land uses such as the new baseball stadium, educational institutions, resident commuters and future railroad connections.
- Create development opportunities for infill development of multi-use buildings including offices, manufacturing, housing and dynamic regional attractions
- Improve a major gateway intersection at Queen City Avenue/Cilley Road/South Willow Street

Accordingly, I strongly support the application of the City of Manchester, NH for a FY 2021 RAISE grant. I request that you give all due attention to the application for this innovative project and thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'William Craig', written in a cursive style.

William Craig
Chair
Manchester Development Corporation
