Manchester, NH 03103

RE: Environmental Due Diligence Amendment – Hazardous Materials  
South Commercial Street Connection  
Manchester, NH  
Fuss & O'Neill Reference No. 20190379.A20

Dear Mr. Clougherty:

Fuss & O'Neill, Inc. has prepared this letter report to summarize findings of the review of pertinent local and state environmental files, historical mapping, and other sources to evaluate the history of environmental conditions in the vicinity of proposed South Commercial Street Connection project (hereafter, the "Site"). Previously, an environmental due diligence letter report prepared by Fuss & O'Neill was submitted for the project in January 2021 for the proposed project Areas identified as A, B, C, & D. In this amendment, these areas have been reconfigured and two additional areas (Areas F & G) have been proposed. A Site Location Plan that shows the location of the proposed project is included as Figure 1. A Site Plan depicting the Site boundary and individual project areas is provided as Figure 2.

Two roadway connections are proposed to extend South Commercial Street, which are described below:

- Extend southwest of the Market Basket located at 460 Elm Street, southeasterly across the former Manchester-Lawrence Railroad corridor, terminating at Elm Street.
- Extend south of the Northeast Delta Dental Stadium, southeasterly across the former Manchester-Lawrence Railroad corridor, easterly across the intersection of Gas and Elm Streets, along the former railroad corridor, and terminating at South Willow Street.

The Site consists of the former rail corridor and a mix of commercial and residential land use. In support of project design and construction, Fuss & O'Neill reviewed pertinent environmental records for the Site and off-Site properties as related to the proposed roadway alignments defined herein. The purpose of the review was to evaluate the potential for contaminated soil and/or groundwater within the boundaries of the Site to inform the development of a scope of environmental testing to confirm these conditions and their potential impact to the proposed roadway development project.

Page 2

## Physical Setting

### Topography and Geology

The Site is located in Downtown Manchester and is aligned from the northwest to the southeast. The Merrimack River is located adjacent to the west/northwest of the Site. The topography of the Site is complex and fluctuates along the corridor, but generally slopes downward to the west, toward the Merrimack River. The regional topography is complex, with hills in the surrounding area that gradually slope downward toward the Merrimack River (USGS, 2012).

Surficial material at the Site is mapped as Windsor-Urban Land complex (USDA, 2010). This overburden soil is described as outwash consisting of loose, sandy glaciofluvial deposits derived from granite, schist, and/or gneiss. Hydraulically, this soil type has high infiltration rates due to the excessively drained sand. Urban land consists of a mix of soils (including sand and gravel) that have been transported or altered by humans to be used as fill material. Previous subsurface investigations were conducted by multiple environmental consultants from early 2000's to 2019 near the two roadway connections proposed to extend South Commercial Street and fill was observed to approximately 12 feet below grade (fbg).

Bedrock beneath the Site is mapped as Massabesic Gneiss Complex (Late Proterozoic), consisting of quartzose-feldspathic gneiss and biotite schists (locally rusty), granofels, and calc-silicate rocks closely intruded by, and grading into, a pink gneissic granite that produced a migmatite (John B. Lyons). Near the two proposed roadway connections, bedrock refusal was documented by URS Corporation during multiple completed Phase II investigations at approximately 44 (fbg).

### Hydrology and hydrogeology

#### Groundwater

The groundwater beneath the Site was classified by New Hampshire Department of Environmental Services (NHDES) as GA2<sup>1</sup>. GA2 groundwater is within aquifers identified as highly productive for potential water supply by the U.S. Geological Survey (USGS) regional groundwater studies or other regional studies. Zones of stratified drift with a saturated thickness greater than 20 feet, and a transmissivity greater than 1,000 feet squared per day shall be designated as class GA2. Zones of bedrock with average well yields greater than 50 gallons per minute shall also be designated as class GA2.

<sup>1</sup> Title L Water Management & Protection Chapter 485-C Groundwater Protection Act, Section 5 Classes of Groundwater, eff. June 28, 1991.

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 3

## Surface Water

The nearest surface water body, the Merrimack River, is located west of the Site, and ranging between approximately 1,000 and 3,000 feet west of the northern and southern portions of the Site, respectively. The Merrimack River flows generally southerly through the City of Manchester. The Merrimack River is classified by NHDES as Class B.<sup>2</sup> Class B waters are considered acceptable for fishing, swimming, and other recreational purposes, and for use as water supplies after adequate treatment has been applied.

## Site Description

The Site consists of the proposed roadway construction area, which includes the following construction areas as detailed below:

- Area A: Pedestrian connection improvements at the Granite and South Commercial Street intersection.
- Area B: South Commercial Street extension to Elm Street,
- Area C: A new multimodal transportation corridor with pedestrian multiuse trail along the former railroad
- Area D: South Willow Street and Queen City Avenue intersection reconfiguration,
- Area F: South Commercial Street extension to Gas Street, and;
- Area G: South Commercial Street extension from Gas Street to Willow Street

The Site Plan, included as Figure 2, depicts the layout of the six proposed construction areas.

## Historical Past Uses

The following sources were used to develop the history of the Site and nearby properties:

- A summary of city street directories, provided by Environmental Data Resources (EDR) for the years 1930, 1939, 1949, 1954, 1959, 1964, 1968, 1973, 1978, 1983, 1988, 1992, 1995, 2000, 2005, 2010, 2014, and 2017.
- Sanborn Fire Insurance Maps, provided by EDR for the years 1885, 1891, 1897, 1915, 1950, 1954, 1971, 1973, 1975, 1983, 1985, and 1989.

---

<sup>2</sup> Title 50 Water Management & Protection Chapter 485-A Water Pollution & Waste Disposal, Section 8 Classification of Waters eff. September 8, 2017.

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 4

- Aerial photographs, provided by EDR for the years 1947, 1952, 1985, 1977, 1985, 1992, 1998, 2006, 2009, 2012, and 2016.
- Historical USGS topographic maps, provided by EDR for the years 1905, 1941, 1943, 1944, 1953, 1957, 1968, 1974, 1985, and 2012.
- New Hampshire Department of Environmental Services (NHDES) environmental case files, obtained via OneStop
- City of Manchester, New Hampshire – Conservation Committee
- Satellite imagery provided by Google Earth®.

Copies of the documents obtained from EDR and NHDES OneStop are included in Attachments A & B, respectively.

#### Area A: Pedestrian connection improvements at the Granite and South Commercial Street intersection

Similar to Area A, Amoskeag Manufacturing Company and the former Merrimack-Lawrence Railroad occupied the area as shown in the 1952 aerial photograph. The 1965 aerial photograph shows construction activities at the Site and the surrounding area as the area continued to develop and expand with commercial businesses. In the 1985 aerial photograph, the mill structures were renovated, and University of New Hampshire occupied the buildings adjacent to the intersection of Granite and South Commercial Streets. Additional mill structures were renovated and developed for commercial use in the 1990's and 2000's.

#### Area B: South Commercial Street extension to Elm Street

Historical operations on-Site included the former Merrimack-Lawrence Railroad and the Millyard (i.e. Amoskeag Manufacturing Company). According to the City of Manchester Historic Association, the Millyard was developed for textile industries in the beginning of the 20<sup>th</sup> century. By 1935, the Amoskeag Manufacturing Company went bankrupt and was closed. The 1952 aerial photograph shows Elm Street in its present-day alignment. Commercial and automotive companies developed over time and were observed during the on-Site investigation as further described below.

#### Area D: South Willow Street and Queen City Avenue intersection

The 1952 aerial photograph shows previous roadway alignments existed prior to the development of the current intersection alignment. The 1952 aerial photograph showed a mix of commercial and residential use in the area around the Site. Shown in the 1965 aerial photograph, Area B was redeveloped as the intersection of South Willow Street and Queen City Avenue. No significant changes to the intersection were noted between the 1965 and 2016 aerial photographs. Commercial and residential properties occupied the surrounding area during the on-Site inspection.

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 5

Area C: New multimodal transportation corridor with pedestrian multiuse trail along the former railroad

The Merrimack-Lawrence Railroad existed prior to the 20th century and was depicted on the 1885 Sanborn Map. The 1952 aerial photograph shows that the Elm Street Bridge had been constructed and the former Merrimack-Lawrence Railroad Corridor underneath it. The railroad has not been in operation since 2001, and has since been abandoned. From the mid-1900s to early-2000s, commercial structures had been developed adjacent to the Site, which includes historical operations of automotive shops and gasoline stations. Companies involved in the petroleum industry (gas stations, heating oil distribution, and automotive repair) developed along Elm Street, and underground and aboveground storage tanks were identified on the Sanborn fire insurance maps provided EDR. .

Area D: South Willow Street and Queen City Avenue intersection

The 1952 aerial photograph shows previous roadway alignments existed prior to the development of the current intersection alignment. The 1952 aerial photograph showed a mix of commercial and residential use in the area around the Site. Shown in the 1965 aerial photograph, Area B was redeveloped as the intersection of South Willow Street and Queen City Avenue. No significant changes to the intersection were noted between the 1965 and 2016 aerial photographs. Commercial and residential properties occupied the surrounding area during the on-Site inspection.

Area F: South Commercial Street extension to Gas Street

The former Manchester Gas Light Company (MGLC) and Merrimack-Lawrence Railroad existed prior to the 20<sup>th</sup> century and were depicted on the 1885 Sanborn Map. The 1947 aerial photograph shows further development in the surrounding area for mixed use residential and commercial purposes. By the late 1970's, the property previously owned by MGLC transitioned to Liberty Utilities, and the Manchester Transit Authority was developed. The present-day alignments for South Commercial and Gas Street existed as shown in the 1977 aerial photograph. In the 1985 aerial photograph, the former ash disposal site (i.e. Singer Park Landfill) was observed as a large disturbed area. Both the 2006 and 2016 aerial photographs show redevelopment which had occurred at this former landfill in the 2000's including the baseball stadium (i.e. Northeast Delta Dental Stadium) and the condominiums (i.e. Residences at Riverwalk). Commercial properties occupied the surrounding area during the on-Site inspection.

Area G: South Commercial Street extension from Gas Street to Willow Street

The Merrimack-Lawrence Railroad was originally constructed in 1849 and was depicted on the 1885 Sanborn Map. The 1915 Sanborn Map show the former Electropac/Johnson Shoe Company building located at 252 Willow Street existed and was used for commercial uses. Electropac occupied the building from 1976 to 2015. At the time of the inspection, Valhalla Circuits Corp. occupied the building. The 1950 Sanborn Map shows a bakery (i.e. Cote Bros. Inc.) existed at 87 Elm Street.. In the 1950 Sanborn Map, a storage unit is depicted in the present-day northern

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 6

portion of the 87 Elm Street parking lot. This storage unit was razed and the bakery was redeveloped as a commercial store front by the 1980's as shown in the 1985 aerial photograph. Aerial photographs between 1952 and 1985, show residential and commercial development along Willow Street near the former Electropac/Johnson Shoe facility from 1950's to 1980's. No significant changes to the area were noted between the 1985 and 2016 aerial photographs. Commercial and residential properties occupied the surrounding area during the on-Site inspection.

## Site Inspection

The initial Site inspection was performed by Fuss & O'Neill in November 2020. On May 28, 2021 Fuss & O'Neill performed an additional Site inspection to observe new and existing Site configurations, nearby property conditions, and specifically to identify existing monitoring wells, areas of filling, and potential sources of hazardous materials. Fuss & O'Neill made observations of existing conditions as discussed below. A photographic log depicting the investigation activities is included as Attachment C.

### Area A: Pedestrian connection improvements at the Granite and South Commercial Street intersection

The intersection of South Commercial and Granite Street is located in the northern portion of the Site. Paved parking lots with landscaping occupies the northwest, northeast, and southeast corners of the intersection. The University of New Hampshire as well as commercial businesses have refurbished the structures associated with the former Millyard for commercial and educational purposes to the south and north of the intersection.

### Area B: South Commercial Street extension to Elm Street

The proposed roadway connection of South Commercial Street to Elm Street runs through the southern portion of the Market Basket property (460 Elm Street). Paved parking areas located in the vicinity of the South Commercial Street extension have minimal landscaping. The former Merrimack-Lawrence Railroad is located between South Commercial Street and the access road to Elm Street running north to south. A Firestone Complete Auto Care and a Prime Gas Station abut the proposed extension alignment directly to the south. Multiple commercial structures are located at higher elevations on the eastern side of Elm Street.

### Area C: New multimodal transportation corridor with pedestrian multiuse trail along the former railroad

Both the proposed multimodal corridor and multiuse trail are located along the former railroad alignment in the center portion of the Site. Beginning south of the Elm Street Bridge, the multiuse pedestrian trail is proposed to continue along the former railroad and terminate at Queen City Avenue. Portions of railroad tracks were removed near the former Electropac/Johnson Shoe

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 7

facility and monitoring wells were observed along this portion of the corridor. To the east and west of the former railroad, residential, commercial, and industrial facilities occupy the abutting properties.

#### Area D: South Willow Street and Queen City Avenue intersection

The intersection of South Willow Street and Queen City Avenue, which is planned for reconstruction, is located in the southern portion of the overall Site as depicted on Figure 2. There are minimal landscaped areas within the intersection and the intersection is abutted by commercial (i.e. Golden Karma Asian Cuisine, Empire Sheet Metal, Northway Bank, People Ready Bank, and US Hydraulics, Inc.) and residential properties. The former railroad alignment intersects Queen City Avenue at the northwest corner of the intersection. An active construction site with approximately five 55-gallon steel drums staged on-site was observed in the northern portion of the intersection. Environmental monitoring wells from the Former Standard Oil Company release (as detailed in Table 1 below) were observed along the southern perimeter of the construction site abutting the former railroad alignment. Gasoline service stations (i.e. Maverick Gas & Convenience and Fast Track Convenience) are located at the northern and southern corners of the intersection.

#### Area F: South Commercial Street extension to Gas Street

The proposed roadway connection from South Commercial Street to Gas Street runs along the southern portion of the Liberty Utilities property (130 Elm Street). Paved parking areas associated with the baseball stadium (Northeast Delta Dental Stadium) and condominiums (Residences at Riverwalk) located in the vicinity of the South Commercial Street extension have minimal landscaping. Drainage and sewer utilities were observed to run along South Commercial Street. A pad-mounted transformer and associated manhole access were observed along South Commercial Street. No evidence of staining or odors were observed. The former Merrimack-Lawrence Railroad is located between South Commercial Street and Gas Street running northeast to southwest. A restaurant (identified as Joe Kelly's) and the Manchester Transit Authority abut the proposed extension alignment to the south.

#### Area G: South Commercial Street extension from Gas Street to Willow Street

The proposed roadway connection from South Commercial Street to Willow Street runs through the northern portion of a parking lot associated with a commercial store front (87 Elm Street) and the southern portion of the parking lot associated with the former Electropac/Johnson Shoe facility (252 Willow Street). Both parking lots were observed with minor landscaping and previous utility trench work. A restaurant (i.e. The Red Barn Diner) was observed north of the proposed extension. A dumpster area was observed in connect with the restaurant with no evidence of staining. The former Electropac/Johnson Shoe facility, located east of the proposed extension, was undergoing construction at the time of the inspection. Auto repair shops were observed east of the proposed extension to Willow Street.

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 8

## Summary of Environmental Concerns

Fuss & O'Neill has reviewed environmental databases for possible environmental concerns in the vicinity of the Site. In addition, NHDES has implemented Alteration of Terrain Regulations (Env-Wq 1507.02(c)) and guidance in screening "alteration of terrain" project areas for contaminants which may impact infiltrated water<sup>3</sup>. NHDES guidance generally prohibits stormwater infiltration in areas where the AGQS or Soil Remediation Standards (SRS) are exceeded. Infiltration or other stormwater best management practices (BMPs) may be included in the proposed roadway alignments, therefore Fuss & O'Neill has referred to this guidance during this initial environmental assessment for potential environmental concerns.

### Historical Rail Bed

Railroad ties from the former Merrimack-Lawrence Railroad are still present in portions of the right-of-way alignment. Railroad ties in the early 20<sup>th</sup> century were typically treated and preserved with chemicals such as creosote, or with spray-applied pesticides, including lead-arsenate. Creosote is also a common source of polycyclic aromatic hydrocarbons (PAHs). Spray-applied additives typically affected the ballast material surrounding the rail ties, in addition to the ties themselves. Due to heavy metal emissions from fuel combustion of rail cars and their use in railroad tracks and equipment, heavy metals are also known to impact the surroundings soils. Fuels and coal used to power trains historically contained lead and other heavy metals and as they burned released the metals into the atmosphere. Therefore, there is the potential for the presence of PAHs, pesticides, and/or metals within the soil at and surrounding the railroad bed.

### Oil and/or Hazardous Material Remediation Sites

Fuss & O'Neill reviewed an environmental database radius search report prepared by EDR. The search radii were selected for consistency with American Society for Testing and Materials (ASTM) Practice E1527-13, Standard Practice for Environmental Site Assessments, Phase I ESA Process, 2013. Thereafter, case files were identified for further review based on their proximity to the Site. Fuss & O'Neill identified environmental case files associated with the off-site addresses listed in Table 1 below. Findings in the table below were based on a review of EDR environmental databases reports and NHDES online records (OneStop). There were multiple locations highlighted by the EDR search indicating automotive uses, underground storage tanks (USTs) and leaking underground storage tanks (LUST) that were remediated and achieved a no further action (NFA) certification. Overall, the noted sites below pertain to both or either petroleum and/or chlorinated

---

<sup>3</sup> NHDES, Guidance Document: Screening Alteration of Terrain Project Areas for Contaminants for the Purpose of Evaluating the Impacts of Infiltration, eff. December 9, 2020.

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 9

volatile organic compounds (CVOC) impacting groundwater and/or soil due to LUSTs or past industrial activities.

Table 1  
Summary of Findings  
EDR and NHDES Records

Project Area	Address/Business Name	Location, proximity to project limits	Environmental Concerns
A	160-186 Granite Street/ Former Jemma Building	Adjacent to Area D; Southwest	This property is an active NHDES remediation site due to historical releases pertaining to former operations of heating oil USTs. Environmental monitoring exists associated with petroleum-related and CVOC compounds detected in groundwater. The site is maintained and periodically reviewed until a no further action is achieved.
B&F	169 South Commercial Street/ Singer Park Landfill & Danais Property	Adjacent to Area B & F; Southeast	Property was used as a former ash disposal site. In addition, a former spill (i.e. Danais property release) has caused a CVOC plume that has affected the site. The site has been closed with no environmental testing having been conducted further than the extents of the Hilton Garden Inn property.
B	276 Elm Street/ Quik-Mart convenience store/gas station	Adjacent to Area B; South	Low levels of petroleum compounds such as benzene, toluene, ethylbenzene, and xylene (BTEX) and methyl tert-butyl ether (MBTE) were detected at the property from a leaking UST. A deep groundwater table and slow groundwater recharge were noted in the Site Characteristics Report to limit the potential of migration of the detected contaminants. A NFA letter was submitted in April 1994 that concluded that remediation has been completed.
B	300 Elm Street/ Firestone Tire & Service Center	Adjacent to Area B; South	Soil was observed to be impacted during UST removal. Affected soil was excavated and confirmation sampling was conducted. The soil results supported a NFA determination and the soil that was excavated was disposed off-site.

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 10

Project Area	Address/Business Name	Location, proximity to project limits	Environmental Concerns
C & G	252 Willow Street/ Former Electopac/Johnson Shoe Facility	Adjacent to Area C & G; East	Recorded as a property occupied by a former shoe factory. This property is active due to petroleum impacted soil, including LNAPL. Residual contamination was noted to be limited to surficial soil up to two feet in depth. LNAPL was reported to have seeped along the slope of the boundary of the facility abutting the former railroad alignment.
C	89 Calef Road/Redimix Companies, Inc.	Adjacent to Area C; west	This property has ongoing groundwater monitoring due to a former release from a LUST. The April 2020 groundwater data had no exceedances of the AGOS, however residual contamination may be present.
D	40 Willow St & 170 Baker St/Former Standard Oil Company Release	Adjacent to Area D; Northwest	A release of approximately 6,000 gallons of "high test" gasoline resulted from a rail car catching on fire located along the Manchester-Lawrence railroad in 1930. This release had impacted the groundwater in the vicinity of Willow Street, Warsaw Avenue, and Plummer Street. Light non-aqueous phase liquid (LNAPL) was reported and monitored consistently along this portion of the former railroad alignment. Natural Source Zone Depletion (NSZD) has been proposed as a remedial option. The remedial planning and execution for this site is still ongoing.
D	Union Street Parking Lot/ Union, Shasta, and Clay Street Areas	Adjacent to Area D; North	CVOC contamination impacted groundwater from an unknown source was observed in the vicinity of Clay, Shasta, and Union Streets. Further investigations were conducted at an upper gradient property, 67 Willow Street. Though concluded not to be the source, buried containers have been excavated and removed from the vicinity of the PCE plume during subsurface investigations.
F	15 Riverwalk Way/Residences at Riverwalk	Adjacent to Area F; West	VOC and PAH impacted groundwater from upgradient sites was observed at 15 Riverwalk Way. Subsurface investigations were performed related to the adjacent former Manchester manufactured gas

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 11

Project Area	Address/Business Name	Location, proximity to project limits	Environmental Concerns
			plant (MGP) and Singer Park Landfill. An Activity Use and Restriction has been implemented.
F	130 Elm Street/Former Manchester Gas Light Company	Adjacent to Area F; Northeast	Oil-like materials (OLM), tar-like materials (TLM), and DNAPL were released through drainage structures into a drainage ravine. Remediation was completed and consisted of excavation and off-site disposal of impacted soil and sediments. This property has ongoing groundwater monitoring due to the former release. The December 2020 groundwater data included detections of VOCs and DNAPL which exceeded the AGQS.
F	80 Elm Street/Paul's Executive Car Care	Adjacent to Area F; South	MTBE was detected in groundwater samples above AGQS due to off-site sources. All potential sources at the property were removed or remediated. Potential off-site sources supported an NFA determination.
F	110 Elm Street/Manchester Transit Authority	Adjacent to Area F; Southwest	A release of approximately 1,270 gallons of vegetable-based hydraulic oil from supply piping beneath the MTA garage floor occurred in 2019. An increasing trend of CVOC contamination (PCE and TCE) in groundwater was observed. Plume distribution is difficult to characterize due to the broad distribution and high variability in PCE and TCE concentrations in an overburdened aquifer. A re-evaluation of the groundwater management zone, completion of a supplemental site investigation, and completion of a remedial action plan were recommended by Juneau Geoservices, LLC in a recent January 2021 Initial Response Action Report.
G	243 Willow Street/Duclos Auto Shop	Adjacent to Area G; Northeast	In 1993 1,2-dichloroethane was detected in groundwater at concentrations exceeding the AGQS. A second round of sampling was performed with similar detected concentration exceeding the AGQS. A round of groundwater sampling was completed in 1995, the groundwater analytical results were below the AGQS. In 1996 a

Mr. Tim Clougherty, City of Manchester, New Hampshire  
 July 2, 2021  
 Page 12

Project Area	Address/Business Name	Location, proximity to project limits	Environmental Concerns
			NFA was achieved for the site indicating there were no active sources of groundwater contamination at the property and AGQS were met.

The above-listed parcels are hydraulically upgradient and/or in close proximity to portions of the Site. With the exception of Area D and F, many of the releases at these properties have reportedly achieved closure status with respect to NHDES regulations (i.e., No Further Action), including direct abutters, residual contamination at these properties has the potential to migrate to and impact the environmental quality of the Site.

### PFAS Sampling Database

In addition, per- and polyfluoroalkyl substances (PFAS) sampling sites were reviewed at the Site and in the surrounding area. PFAS are a group of man-made compounds that are persistent in the environment and known to not break down and accumulate overtime. Furthermore it is evident that the exposure of PFAS can lead to adverse human health effects. The U.S. Environmental Protection Agency has taken actions to regulate PFAS in the environment.

According to NHDES, properties subjected to PFAS sampling that have NHDES AGQS exceedances may have impacted adjacent properties within a 1,000 foot radius. In addition, if the Site is located within the Consent Decree boundary for the Saint-Gobain Performance Plastics (SGPP) site (NHDES Site No. 199712055), the NHDES regulations state that PFAS contamination may be present and further testing may be warranted. Fuss & O'Neill reviewed the NHDES PFAS Sampling database and case files were identified for further review based on their proximity to the Site. Fuss & O'Neill identified environmental case files associated with the off-site addresses listed in Table 2 below. The consent decree boundary and 1,000 foot buffer areas for the properties listed below are included on Figure 2. Findings in the table below were based on a review of NHDES online records (OneStop).

Mr. Tim Clougherty, City of Manchester, New Hampshire  
 July 2, 2021  
 Page 13

Table 2  
 Summary of Findings  
 NHDES Records

Project Area	Address/Business Name	Location, proximity to project limits	Environmental Concerns
A	55 Central Street/Former E&R Laundry & Dry Cleaners, Inc.	1,320 feet east of Area A	According to the Periodic Groundwater Monitoring Summary Report prepared by Wilcox & Barton Inc. (W&B), dated June 2020, total perfluorooctanoic acid (PFOA) and PFAS were detected in groundwater at the property exceeding the AGQS between February and March 2019. The next monitoring period that was performed in March 2020 indicated no PFAS compounds were detected at concentrations exceeding AGQS. According to W&B, the source of PFAS is unknown, however, it has been indicated that the detected contaminants are contained in the groundwater management zone on the property. W&B continues to monitor the groundwater at the property for PFAS.
D	SSGP Consent Decree Boundary	Adjacent to the southern roadway alignment of Queen City Avenue	According to a NHDES letter response in July 2018, a release of PFAS resulting from Saint-Gobain Performance Plastics (Saint-Gobain) operations was initially assessed in 2016. After further PFAS groundwater monitoring, NHDES has defined the extent of the release to have impacted the surrounding area of the facility including the municipalities of Bedford, Litchfield, Manchester, and Merrimack. The Saint-Gobain Consent Decree Boundary is the preliminary Groundwater Management Zone (GMZ), where Saint-Gobain will continue to monitor the groundwater for PFAS.
D	176 S Willow Street/ Arrow Glass	Adjacent to Area D; Intersection of South Willow and South Beach Street	According to the Phase II Environmental Site Assessment performed by Sanborn Head Associates (Sanborn Head) dated February 2018, total PFAS compounds were detected in groundwater at the property exceeding the AGQS. No historical uses of PFAS were identified at the property and Sanborn Head attributed the detections to an off-site source. A former dry cleaner (i.e. Sunshine Fabricare Dry Cleaners, described below) had been located at 93 South Maple Street, approximately 300 feet northeast and upgradient from the

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 14

Project Area	Address/Business Name	Location, proximity to project limits	Environmental Concerns
			property. The 93 South Maple Street property is now operated as a car wash. Sanborn Head requested a site closure from NHDES, citing PFAS contamination coming from off-property.
D	93 South Maple Street/ Sunshine Fabricare Former A&P Shopping Center	450 feet southeast of Area D	Total PFAS compounds were detected in groundwater at the property exceeding the AGQS. As noted above in Site No. 199310024, a dry cleaner operation (i.e. former Sunshine Fabricare) existed at this property for approximately 35 years. A Groundwater Management Permit (GMP) Annual Summary prepared by Engel Environmental Services, Inc. dated July 2019 stated the detected PFAS compounds in groundwater were below the AGQS. As noted in the GMP Renewal prepared by NHDES dated in November 2019, the AGQS were updated and effective on September 30, 2019. The June 2019 results for the detected PFAS compounds exceeded the revised AGQS. Therefore, NHDES has required continued PFAS monitoring as part of the site's GMP.
F	110 Elm Street/ Manchester Transit Authority	Adjacent to Area F; Southwest	PFOA compounds were detected in the groundwater at the property exceeding the NHDES AGQS. The Initial Response Action Report completed in January 2021 by Juneau Geoservices, LLC noted past history indicated that bus washing was conducted at the property prior to 2000. A re-evaluation of the groundwater management zone was recommended in a recent January 2021 Initial Response Action Report. The property is currently undergoing screening for PFAS.

## Conclusion

This summary of findings documents past uses that may have the potential to contribute to soil and groundwater contamination at the Site in comparison to applicable NHDES soil and groundwater standards. The following environmental concerns were identified as related to the proposed construction project (Site).

Mr. Tim Clougherty, City of Manchester, New Hampshire

July 2, 2021

Page 15

- Historical Rail Bed: Due to the past historical use of the Merrimack-Lawrence Railroad, contaminants (i.e. heavy metals, pesticides, and PAHs) are a common environmental concern. This former railroad alignment is present in all four areas of the proposed project area.
- Oil and/or Hazardous Materials: Several properties have been identified as having the potential to have either previously or currently impacting the Site with soil and/or groundwater contamination. These properties are located in close proximity and/or adjacent to the Site.
- PFAS Groundwater Sampling: In accordance with the NHDES, Area D of the Site is located within the SSGP Consent Decree Boundary and within 1,000 feet of identified PFAS sampling sites. Furthermore, additional identified properties within 1,000 feet of the Site are identified as having NHDES AGQS exceedances for PFAs.

Fuss & O'Neill recommends that these potential contaminants and associated sources should be taken into consideration in the development of the Site. Based on the potential presence of contamination in groundwater, soil, and specifically PFAS monitoring, we recommend that targeted soil and groundwater investigation be completed to determine the presence of soil and groundwater contamination prior to the completion of construction activities. A targeted investigation would assist with planning and design considerations as they relate to soil and groundwater management activities during construction. Due to the potential for soil and groundwater contamination at concentrations greater than the NHDES standards, a targeted investigation would also assist in preparation for stormwater management design for the Site.

If you should have any questions regarding the contents of this letter, please do not hesitate to contact me at 1-800-286-2469, extension 4576. Thank you for this opportunity to have served your environmental needs.

Sincerely,

Joshua J. Robinson  
Environmental Scientist

Daniel C. LaFrance, LSP  
Project Manager

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

# EXECUTIVE SUMMARY

## TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

## DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

## STANDARD ENVIRONMENTAL RECORDS

### ***Federal NPL site list***

NPL..... National Priority List  
Proposed NPL..... Proposed National Priority List Sites  
NPL LIENS..... Federal Superfund Liens

### ***Federal Delisted NPL site list***

Delisted NPL..... National Priority List Deletions

### ***Federal CERCLIS list***

FEDERAL FACILITY..... Federal Facility Site Information listing  
SEMS..... Superfund Enterprise Management System

### ***Federal RCRA CORRACTS facilities list***

CORRACTS..... Corrective Action Report

### ***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF..... RCRA - Treatment, Storage and Disposal

### ***Federal RCRA generators list***

RCRA-SQG..... RCRA - Small Quantity Generators

### ***Federal institutional controls / engineering controls registries***

LUCIS..... Land Use Control Information System  
US ENG CONTROLS..... Engineering Controls Sites List  
US INST CONTROLS..... Institutional Controls Sites List

### ***Federal ERNS list***

ERNS..... Emergency Response Notification System

### ***State and tribal leaking storage tank lists***

INDIAN LUST..... Leaking Underground Storage Tanks on Indian Land

## EXECUTIVE SUMMARY

### ***State and tribal registered storage tank lists***

FEMA UST..... Underground Storage Tank Listing  
INDIAN UST..... Underground Storage Tanks on Indian Land

### ***State and tribal voluntary cleanup sites***

INDIAN VCP..... Voluntary Cleanup Priority Listing

LEAD SMELTERS.....	Lead Smelter Sites
US MINES.....	Mines Master Index File
ABANDONED MINES.....	Abandoned Mines
UXO.....	Unexploded Ordnance Sites
DOCKET HWC.....	Hazardous Waste Compliance Docket Listing
FUELS PROGRAM.....	EPA Fuels Program Registered Listing
NH Financial Assurance.....	Financial Assurance Information Listing
NH LEAD.....	Lead Inspection Database
NH NPDES.....	NPDES Permit Listing
NH MANIFEST.....	Hazardous Waste Manifest Information Listing
MINES MRDS.....	Mineral Resources Data System

### EDR RECOVERED GOVERNMENT ARCHIVES

#### ***Exclusive Recovered Govt. Archives***

NH RGA HWS.....	Recovered Government Archive State Hazardous Waste Facilities List
NH RGA LF.....	Recovered Government Archive Solid Waste Facilities List
NH RGA LUST.....	Recovered Government Archive Leaking Underground Storage Tank

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

#### ***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for

## EXECUTIVE SUMMARY

listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 04/27/2021 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

### ***Federal RCRA generators list***

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/22/2021 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 03/22/2021 has revealed that there are 11 RCRA-VSQG sites within approximately 0.25 miles of the target property.

### **State- and tribal - equivalent CERCLIS**

NH SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Environmental Services' Hazardous Waste Inventory list.

A review of the NH SHWS list, as provided by EDR, and dated 02/02/2021 has revealed that there are 47 NH SHWS sites within approximately 1 mile of the target property.

### **State and tribal landfill and/or solid waste disposal site lists**

NH SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Environmental Services' list: Landfills Operating in 1990 that Received Municipal Solid Waste/Landfills that Discontinued Receiving Municipal Solid Waste.

A review of the NH SWF/LF list, as provided by EDR, and dated 01/12/2021 has revealed that there are 2 NH SWF/LF sites within approximately 0.5 miles of the target property.

## EXECUTIVE SUMMARY

### ***State and tribal registered storage tank lists***

NH UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Department of Environmental Services' list: Underground Storage Tank Registration Data.

A review of the NH UST list, as provided by EDR, and dated 02/02/2021 has revealed that there are 68 NH UST sites within approximately 0.25 miles of the target property.

### **Local Lists of Hazardous waste / Contaminated Sites**

NH ALLSITES: Provides information on sites in New Hampshire, with activities that either have resulted in groundwater contamination or pose a potential hazard to groundwater supplies. The regulated activities and groundwater hazards include: confirmed releases of oil or hazardous materials to the soil and/or groundwater as a result of discharges, spills, and removal of underground storage tanks; underground injection wells such as floor drains, leaching galleries, and septic systems anything other than domestic wastewater; large discharges of wastewater such as domestic wastewater septic systems which are designed to discharge more than 20,000 gpd, land application of wastewater treatment facility effluent (spray irrigation, rapid infiltration rapid infiltration basins, etc.) and unlined septage and wastewater lagoons; unpermitted hazardous waste storage facilities; landfills and other waste repositories in which groundwater quality is at risk.

A review of the NH ALLSITES list, as provided by EDR, and dated 02/02/2021 has revealed that there

## EXECUTIVE SUMMARY

are 92 NH ALLSITES sites within approximately 0.5 miles of the target property.

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/22/2021 has revealed that there are 143 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

CT MANIFEST: Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

A review of the CT MANIFEST list, as provided by EDR, and dated 10/05/2020 has revealed that there is 1 CT MANIFEST site within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
<b>EXXON MOBIL ENVIRONM</b> EPA Id: NHD510216765	BETWEEN QUEEN CITY A	SE 1/8 - 1/4 (0.141 mi.)	AH184	931

NJ MANIFEST: Hazardous waste manifest information.

A review of the NJ MANIFEST list, as provided by EDR, and dated 12/31/2018 has revealed that there is 1 NJ MANIFEST site within approximately 0.25 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

# EXECUTIVE SUMMARY

## EDR HIGH RISK HISTORICAL RECORDS

### ***EDR Exclusive Records***

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
MANCHESTER GAS WORKS	130 ELM STREET	0 - 1/8 (0.000 mi.)	C42	164

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 16 EDR Hist Auto sites within approximately 0.125 miles of the target property.

## EXECUTIVE SUMMARY

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:

Waste Code: D001  
Waste Description: IGNITABLE WASTE

Waste Code: F003  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Summary:

Waste Code: D008  
Waste Description: LEAD

Waste Code: D022  
Waste Description: CHLOROFORM

Waste Code: F003  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

		The Site is located on the western side of Willow Street in a commercially-zoned area. The Site consists of two parcels, the Site Building (Map 733, Lot 19) and a parking lot area to the south of the Site Building (Map 733, Lot 18). The Site is abutted by a vacant lot to the north, Willow Street to the east, beyond which are multiple commercial properties, a residential property to the south, and an old spur of the Boston & Maine (B&M) Railroad to the west, beyond which are multiple commercial properties. The Site had been used as a mill building for manufacturing since 1880 when the Site building was built. From 1915 through 1979 the site was used for shoe manufacturing. Since 1979 the Site had been occupied and operated by Electropac which manufactured printed circuit boards used by industrial and commercial manufacturers in the defense, medical, and

to the north, Willow Street to the east, beyond which are multiple commercial properties, a residential property to the south, and an old spur of the Boston & Maine (B&M) Railroad to the west, beyond which are multiple commercial properties. The Site had been used as a mill building for manufacturing since 1880 when the Site building was built. From 1915 through 1979 the site was used for shoe manufacturing. Since 1979 the Site had been occupied and operated by Electropac which manufactured printed circuit boards used by industrial and commercial manufacturers in the defense, medical, and other industries. The Site is developed with a four-story, approximately 105,537 square-foot brick structure. The Site building was constructed circa 1880 as a mill building. Asphalt-paved parking lots occupy the east and south portions of the Site property. The remainder of the Site is occupied by concrete walkways and limited landscaped areas.

Hazardous Waste Summary:

Waste Code: D002  
Waste Description: CORROSIVE WASTE

Waste Code: D008  
Waste Description: LEAD

Waste Code: F003  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F006  
Waste Description: WASTEWATER TREATMENT SLUDGES FROM ELECTROPLATING OPERATIONS, EXCEPT FROM THE FOLLOWING PROCESSES: (1) SULFURIC ACID ANODIZING OF ALUMINUM; (2) TIN PLATING ON CARBON STEEL; (3) ZINC PLATING (SEGREGATED BASIS) ON CARBON STEEL; (4) ALUMINUM OR ZINC-ALUMINUM PLATING ON CARBON STEEL; (5) CLEANING/STRIPPING ASSOCIATED WITH TIN, ZINC, AND ALUMINUM PLATING ON CARBON STEEL; AND (6) CHEMICAL ETCHING AND MILLING OF ALUMINUM.

**Environmental Interest/Information System:**

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

**AIR EMISSIONS CLASSIFICATION UNKNOWN**

US EPA Assessment, Cleanup and Redevelopment Exchange System (ACRES) is an federal online database for Brownfields Grantees to electronically submit data directly to EPA.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport,

Hazardous Waste Summary:

Waste Code: D001  
 Waste Description: IGNITABLE WASTE

Waste Code: D018  
 Waste Description: BENZENE

Waste Code: F002  
 Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F004  
 Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Description: IGNITABLE WASTE

Waste Code: D018  
Waste Description: BENZENE

Waste Code: F001  
Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING:  
TETRACHLOROETHYLENE, TRICHLORETHYLENE, METHYLENE CHLORIDE,  
1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED  
FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING  
CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF  
ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED  
IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE  
SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

form of dissolved phase hydrocarbons in the groundwater. Numerous investigations have occurred on the property, which resulted in a groundwater management permit being placed on the property which requires semi-annual groundwater monitoring and reporting. A deed restriction is present on the property that prohibits the use of groundwater at the site. The source of the contamination has not been determined.

Property Description:	The subject property consists of an irregularly shaped 7.28 acre parcel of land improved with two buildings. The main building is a 33,600 square foot building used as the offices for MTA, the repair area for municipally owned buses, and an interior parking area for MTA vehicles. A smaller 1,600 square foot building used as a drive through vehicle wash is located off the southwest corner of the main building. All historic information obtained indicated that the property was undeveloped until the present structure was constructed in 1974/1975. It should be noted that the area surrounding the property was developed prior to 1885. Earliest records obtained during our research indicate that several established industrial properties gas & light plant to the north, slaughter house to the south, and B&M Railroad to the west were depicted in the 1885 Sanborn Map.

Hazardous Waste Summary:

Waste Code: D001  
Waste Description: IGNITABLE WASTE

Waste Code: D018  
Waste Description: BENZENE

Waste Code: F003  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

<b>US BROWNFIELDS:</b>	
Name:	RIVER'S EDGE II
Address:	52-62 ELM STREET
City,State,Zip:	MANCHESTER, NH 03101
Recipient Name:	Southern New Hampshire Planning Commission
Grant Type:	Assessment
Property Number:	M708 L001
Parcel size:	6.49
Latitude:	42.976392
Longitude:	-71.463911
HCM Label:	Interpolation-Satellite
Map Scale:	-
Point of Reference:	Center of a Facility or Station
Highlights:	The subject property is comprised of one 1 6.487-acre irregularly shaped parcel of land located at 52-62 Elm Street in Manchester, New Hampshire. Three buildings are currently located on the property, and are occupied by Scott s Performance Auto, Curly s Carpets, Paul's Executive Car Care, JGE Enterprises a construction contractor, Expedition Drilling, NMS Auto Repair and Body, and a foreign automotive shop. Two of the buildings were formerly a single building constructed in 1925, occupied primarily by a banana distribution warehouse.

The site was formerly used as a petroleum fueling station in two locations on the site from sometime between 1915 and 1950 to sometime between 1983 and 1989. Numerous automotive repair businesses have used the property in the past and the present. Historic aerial photos and information provided indicates that the western portion of the property was used for the storage of junk vehicles. The western portion of the site was covered with large piles of soil from the adjacent reconstruction of the former JacPac Foods property which had documented benzene, TCE and MTBE contaminated soil

US BROWNFIELDS:

Name: RIVER'S EDGE II - 3 LOTS  
 Address: 50 ELM STREET AND 1 AND 4 BAKER COURT  
 City,State,Zip: MANCHESTER, NH 03101  
 Recipient Name: Southern New Hampshire Planning Commission  
 Grant Type: Assessment  
 Property Number: M708 L2, M708 L5, M708 L7  
 Parcel size: .71  
 Latitude: 42.975807  
 Longitude: -71.463887  
 HCM Label: Interpolation-Satellite  
 Map Scale: -  
 Point of Reference: Other Point  
 Highlights: The properties included in this Phase I ESA report include a commercial/residential building located at 50 Elm Street and two vacant lots located at 1 and 4 Baker Court. The 1 Baker Court property is referred to as map 708 Lot 1, and the 4 Baker Court property is referred to as Map 708, Lot 5. All three lots are currently owned by River s Edge Manchester II, LLC. The 50 Elm Street property is a somewhat rectangular-shaped piece of land consisting of approximately 0.32-acres occupied by a 7,400 square foot building used as a commercial business and residential apartment. The building was constructed in 1940 of a poured concrete foundation, brick exterior with wood framing, and an asphalt shingled roof. The property located at 1 Baker Court is a vacant lot. A former residence occupied the property but was recently demolished and no evidence of the former structure remains. The northern property boundary is formed by a 7 to 8 foot retaining wall. It is unknown if the subject property was backfilled to create a retaining wall. The property located at 4 Baker Court is currently a vacant lot. A residence formerly occupied the property but was demolished. No evidence of the residential structure remains.

Name: RIVER'S EDGE II - 3 LOTS  
Address: 50 ELM STREET AND 1 AND 4 BAKER COURT  
City,State,Zip: MANCHESTER, NH 03101  
Recipient Name: Southern New Hampshire Planning Commission  
Grant Type: Assessment  
Property Number: M708 L2, M708 L5, M708 L7  
Parcel size: .71  
Latitude: 42.975807  
Longitude: -71.463887  
HCM Label: Interpolation-Satellite  
Map Scale: -  
Point of Reference: Other Point  
Highlights: The properties included in this Phase I ESA report include a commercial/residential building located at 50 Elm Street and two vacant lots located at 1 and 4 Baker Court. The 1 Baker Court property is referred to as map 708 Lot 1, and the 4 Baker Court property is referred to as Map 708, Lot 5. All three lots are currently owned by River s Edge Manchester II, LLC. The 50 Elm Street property is a somewhat rectangular-shaped piece of land consisting of approximately 0.32-acres occupied by a 7,400 square foot building used as a commercial business and residential apartment. The building was constructed in 1940 of a poured concrete foundation, brick exterior with wood framing, and an asphalt shingled roof. The property located at 1 Baker Court is a vacant lot. A former residence occupied the property but was recently demolished and no evidence of the former structure remains. The northern property boundary is formed by a 7 to 8 foot retaining wall. It is unknown if the subject property was backfilled to create a retaining wall. The property located at 4 Baker Court is currently a vacant lot. A residence formerly occupied the property but was demolished. No evidence of the residential structure remains.

Hazardous Waste Summary:

Waste Code: D001  
Waste Description: IGNITABLE WASTE

Waste Code: D018  
Waste Description: BENZENE

Waste Code: F002  
Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F004  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Hazardous Waste Summary:**

Waste Code: D001  
Waste Description: IGNITABLE WASTE

Waste Code: D039  
Waste Description: TETRACHLOROETHYLENE

Waste Code: F003  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Summary:

Waste Code: D001  
Waste Description: IGNITABLE WASTE

Waste Code: D002  
Waste Description: CORROSIVE WASTE

Waste Code: D008  
Waste Description: LEAD

Waste Code: F001  
Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLOROETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F003  
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
